Your Needs. Our Expertise.

Controlled Fluids, Inc. (CFI) is an ISO 9001:2015 registered industrial fluid power and fluid conditioning distributor with systems design, fabrication, and component repair capabilities.

For over 35 years, CFI has offered quality products and a wide range of services including field services and systems integration. Our depth of motion control and filtration solutions experience is significant as we work with our customers to provide full support through the life cycle of your equipment needs.

Because of our steadfast commitment to quality and on-time delivery, CFI is now one of the largest value-added distributors in North America for products such as Moog, Atos, Hy-Pro, Oilgear, Kawasaki, and Atlas Cylinders.
